

## List of Memory Verses for the Videos

For every set of questions we have a memory verse, which we teach the children after the video has been discussed. The memory verses for question sets 1-28 are on the questionnaires, but we have not added the memory verses to the questionnaires of the rest yet, apart from a few. Below are the memory verse references for remainder of the videos. Sometimes the verse is a little long, so you have to only teach the important part thereof. Just take out the core of it. Let the Holy Spirit guide you. See the memory verse on questionnaire number 64 as an example.
